

YANKS SLUGGING AHEAD AROUND AACHEN

Meandering
Along the
Main Stem
By WASH FAYETTE

During the past day or two those weather barometers, the monarch butterflies, have been migrating southward, and tens of thousands of them have passed over Fayette County in their flight toward warmer climes.

Friday was a good day for them and I noticed at least a dozen passing over the buildings as I walked along the street.

Invariably these big black and orange butterflies make their migratory flight just before much colder weather arrives. For several years I have checked them against the weather, and they have never failed.

I believe I have told you before how these big butterflies, which originate from the green and black milkweed worm, hold a straight course when once they start their flight, and by some unerring instinct do not deviate from their course. I have seen them spiral about to pass over buildings and trees, rather than fly around them, as if impelled by some irresistible force to "stay on the beam" toward the south.

Most of you folks have repeatedly been annoyed by some thoughtless person sitting near you in a picture show, who insists upon rattling paper bags, crunching popcorn or peanuts, or otherwise keeping up a distracting noise.

Some movie-goers who have not learned the finer things about courtesy and respect for their fellowmen also insist upon wiggling about in their seats; leaning far over to one side; sticking feet and legs into the space that belongs to their next neighbor; chattering, wearing hats, and pulling many other stunts that they never learned from Emily Post.

EXPANSION OF REA
SEEN BY WICKARD

Says Employment Would Be Vital in Postwar Period

NAPOLEON, O., Oct. 7.—(P)—Wide post-war expansion of rural electrification facilities which would create "employment and industrial demand almost as important as benefits accruing directly to agriculture" is proposed by Secretary of Agriculture Claude Wickard.

Wickard outlined a \$585,000, three-year program yesterday to officials of Ohio's 28 rural electric cooperatives.

Describing the plan as "a mighty challenge to the farm people of the nation," Wickard said:

"In the postwar period, as we shift our economy from a wartime to a peacetime basis, the employment and industrial demand which will be created by a wide expansion of rural electrification may be almost as important as benefits accruing directly to agriculture."

WILLKIE EXPECTED
TO IMPROVE SOON

Former GOP Candidate Is in New York Hospital

NEW YORK, Oct. 7.—(P)—Wendell L. Willkie, ill with a throat infection and a slight lung congestion, was reported by his physician, Dr. Benjamin Salzer, last night to be resting comfortably at the Lenox Hill Hospital.

The physician said he expected the condition of the 1940 Republican presidential nominee to improve within 24 hours.

Willkie entered the hospital Sept. 6 for a physical checkup and treatment of a stomach ailment. His present illness developed two days ago.

FIGHTER PLANE CRASHES
IN CEDARVILLE CORNFIELD

XENIA, O., Oct. 7.—(P)—An army fighter plane crashed in a cornfield near Cedarville yesterday, killing the pilot, whose identity was not determined immediately.

State Highway Patrolman E. L. Meyer of Dayton said he saw the ship start to lose altitude at about 1,500 feet, then fall. The pilot's body was dragged from the flaming wreckage.

ZAKUA BROZ, son of Marshal Tito, wearing the order of the Red Star, is pictured as he was seen on the liberated island of Vis. He lost his right arm in the defense of Moscow and is shown wearing an artificial limb. (International)

PACKARD MENAGED
WITH A SHUTDOWN

Maintenance Men's Strike Cripples Production

DETROIT, Oct. 7.—(P)—Packard Motor Car Co. officials said today their plant, employing 40,000 persons, was threatened with a complete shutdown because of a strike of 1,000 maintenance men.

About half the total working force was made idle yesterday by the strike. The plant was closed today under a new schedule of hours which eliminates Saturday work, a company spokesman said. Regular shifts return Monday.

Council members voted to return to their jobs after the National War Labor Board notified them it could take no action on their demands for a study of wage structures as long as the strike was in progress.

31 MORE CONVICTED
OF PLURAL MARRIAGE

Salt Lake City Trial for Polygamists Continues

SALT LAKE CITY, Oct. 7.—(P)—Prosecutors marked up 31 more convictions today in their efforts to stamp out plural marriage practices, increasing to 39 the number of persons adjudged guilty. So far 55 convictions have been obtained.

Twenty men and 11 women were convicted by a district court jury yesterday of conspiring to preach and practice polygamy. All defendants are members of the "fundamentalist" cult headed by 70-year-old John Yates Barlow, one of 31 defendants in the conspiracy trial and previously convicted of living unlawfully with four women.

MOTHER OF EDITOR DIES

GALLIPOLIS, Oct. 7.—(P)—Mrs. J. Sherman Porter, 74, mother of Jim Porter, editor of the Gallipolis Daily Tribune, died here today. Her late husband formerly was editor of the Lexington (Ky.) Herald.

Fire Cracker Explosions
Spice Communist Revue

By LEO TAFTE

BOSTON, Oct. 7.—(P)—The loud explosion of several large firecrackers threw the premiere of the Communist political association's controversial musical revue, "F.D.R. Victory Bandwagon," into temporary confusion last night.

The sharp explosions came only a moment after Earl Browder, Communist Political Association leader, had finished speaking, but men in the capacity symphony

Hungary's Collapse
Believed Near As
Reds Cross Border

Germans Fleeing Greece After British Invasion Under Fire of Yank Fliers — Belgrade Is Under Virtual Siege By Russian and Yugoslav Forces

(By the Associated Press) Russian troops have surged across the Romanian frontier into Hungary along a 75-mile front less than 100 miles southeast of Budapest in a powerful attack that has already enveloped more than 100 communities of that last big Nazi puppet nation, it was announced officially last night.

Already 13 miles inside Hungary the Red army has seized three important railways and highways leading into Budapest. Driving swiftly across farmlands offering little natural defense the Red army troops captured Mako, within 15 miles of Szeged, Hungary's second city, the war bulletin said.

LABOR IS ISSUE
IN OHIO POLITICS

Stewart Charges Lausche Is Roosevelt Candidate

(By the Associated Press) Mayor James Garfield Stewart of Cincinnati, Republican gubernatorial nominee, claims that his Democratic opponent, Mayor Frank J. Lausche of Cleveland, "was ordered by the president" to become a candidate. Stewart's assertion, which party leaders said probably would become an Ohio campaign issue, was made last night in an address at the fall meeting of the Ohio Federation of Republican women's organizations.

"He was personally ordered to enter the race for governor by the president himself," Stewart said of Lausche's candidacy. "He is also the choice of Sidney Hillman's political action committee," Stewart added.

Pausing in West Union, Adams County seat, while on his stump tour through southern Ohio, Lausche said of Stewart's charges: "As election day approaches, in the fear of impending defeat he (Stewart) obviously is being thrown into consternation and afflicted with hysteria causing him to make extravagant statements which have no support in fact."

HOOKS SAVE CREW
OF CRASHED BOMBER

Natives Guide Airmen Through Jap Lines in Safety

ADVANCED SOUTHWEST PACIFIC AIR BASE, Sept. 27.—(Delayed)—(P)—Fishhooks and razor blades paid the way for the homeward trek of a U. S. Fifth Air Force bomber crew after a forced landing among New Guinea natives back of Japanese lines.

When the Mitchell medium bomber, both engines dead after a strafing mission, crash-landed in a marsh, Capt. Leroy F. Puthoff of San Antonio, Tex., and Middleton, Ohio, marshaled the six other crewmen to figure a way out of their predicament.

Fortunately, none had been injured. A search party located a native village, but the natives, who admitted disliking the Japanese, were indifferent to the Americans' problem of how to get home.

The fishhooks and razor blades changed the natives' attitude. The airmen swapped the hooks and blades in return for guides.

Their trip took them from village to village, through and around Japanese concentrations, and a canoe ride ending at an Australian outpost and safety five days after the crash.

hall audience quickly calmed excited spectators.

Police converged on the scene of the explosions but found no one who was involved.

Browder, speaking between the acts, said John L. Lewis, mine workers' chief, had conspired to stir up strikes only because he had "the protection and collaboration of candidates Dewey and Bricker" adding that "the time

GERMAN ATROCITY. These are burned Russians. Or what remains of them. They are stacked up between logs in a funeral pyre. The victims brought their own logs. Machine-gunned by the Nazis, they were thrown upon them and set afire. The picture, says Moscow, which released it together with the story of the horrible massacre, was taken in the Kluga settlement. (International Soundphoto)

Jap Threat in China
Is Growing Serious

Nips Claim Capture of Important Port of Foochow, Superior Air Force, But Yanks Continue To Blast Enemy Ships

(By the Associated Press) The Japanese today claimed the capture of Foochow, important port objective in their drive to seal off southeastern China before an Allied thrust.

A Tokyo Imperial communique said Japanese forces three days ago took Foochow, capital of Fukien Province and the last major

The new offensive in southeast Hungary fanned out from Arad, big west Romanian base. Other reports in Moscow said the Hungary home front might collapse at any moment, and the Russians already were planning an invasion of Austria.

Hungary also was menaced by Russian military might from the north where along the Czechoslovak-Polish border Soviet troops fought toward a crossing of the Carpathian Mountains.

In the Baltic, the war bulletin said, Russian troops on Saare Island, which guards the entrance to the Gulf of Riga, captured 800 prisoners and advanced southwestward 15 miles.

Germans Flee Greece A great part of the Peloponnese in Greece now is cleared of Germans. Allied headquarters announced today.

British ships bombarded the Greek island of Levitha on October 5 and then landing parties captured the eastern half of the island. The German commander on the island surrendered at dusk after a further bombardment.

(Please Turn To Page Six)

Daring Liberator Pilot
Rescues Airmen in Sea

A FIFTH AIRFORCE BASE, OFF DUTCH NEW GUINEA, Sept. 29.—(Delayed)—(P)—The Liberator bomber circled little patches of yellow dotting the blue Pacific between Japanese-held Celebes and Japanese-held Halmahera islands.

The yellow patches, six of them, were men in their Mae West life jackets, crew members of a Mitchell medium bomber which had been forced down at sea on its return from a strike against the enemy.

The Liberator, a unit of the Jolly Rogers outfit, also was en route home from a bombing mission when it spotted the Fifth Air Force airmen.

The pilot, Lt. Harry E. Pennington, Jr., of Krypton, Ky., came down to within 60 feet of the water. There the plane circled for 45 minutes while crewmen prepared to drop the bomber's life raft. It landed, damaged, about 150 feet from the swimming men. One of the Mitchell crewmen, injured, was hoisted aboard the rubber boat. The others clung to its side.

Information on the men's position was sent to Catalina flying boats operated by an Air-Sea Rescue Unit. But other radio signals interfered with the transmission, and the Cats were slow in coming.

Jap Threat in China
Is Growing Serious

Nips Claim Capture of Important Port of Foochow, Superior Air Force, But Yanks Continue To Blast Enemy Ships

(By the Associated Press) The Japanese today claimed the capture of Foochow, important port objective in their drive to seal off southeastern China before an Allied thrust.

A Tokyo Imperial communique said Japanese forces three days ago took Foochow, capital of Fukien Province and the last major

Chinese-held port on the east coast. The Chinese reported earlier that reinforced Nipponese columns had fought to the city's northwest suburbs after advancing approximately 25 miles since their September 27 landings.

Southwest Pacific bombers, continuing to snarl over Japanese shipping lines, sank a minelayer and two merchantmen and probably destroyed another freighter in strikes near Celebes and Ambinoia. This pushed the October total to 23 ocean-going vessels for these constantly patrolling airmen who bagged 210 ships in September. Today's communique also reported eight small surface craft were sunk and 11 damaged. Other planes hit airfields in Celebes and the Moluccas.

In northwestern Burma, Allied forces under strong aerial support laboriously were wiping out Japanese entrenched in bunkers on

Although still three hours from home and within enemy fighter plane range, the Liberator stood by for more than 2½ hours to

Jap Submarine Attacks Transport
And Misses---But Everyone Jittery

(EDITOR'S NOTE: Robert S. Harper, who began his newspaper career in Washington C. H., is now in the Pacific covering the war against Japan for the Ohio State Journal as an accredited war correspondent assigned to Gen. Douglas MacArthur's command area. He left his position on the Journal editorial staff to go on the assignment. His reports are published in the Record-Herald through the courtesy of the Ohio State Journal.)

By ROBERT S. HARPER SOMEWHERE AT SEA IN THE PACIFIC—The Japanese have begun to shoot at us. The fact that I am writing about it now makes it unnecessary to explain that the little Sons of — ah — ah — ah — Heaven missed. At dawn of a gray blustery day a Japanese submarine fired one torpedo—and probably two—at

GRIP TIGHTENED
ON METZ FORTS
IN FIERCE FIGHT

Allied Warplanes Are Out in Strong Force—Americans Advance in Italy

(By the Associated Press) The U. S. First Army slugged away with both fists above Aachen today, jabbing German stop-gap tanks and infantry back half a mile north of Begendorf and a mile and a half southeast of Ubach.

The Doughboys also pounded nearly a mile through the Hurtgen forest, ten miles into Germany a third of the way to Cologne.

On the middle Moselle front the Third Army won a solid hold on the northwest and southwest corners of Fort Driant, southwest of Metz, taking everything the Germans could hurl at them from the outside and blasting in doggedly to dig out the garrison buttoned into the honeycomb of tunnels below. By noon the Doughboys were reported to have advanced 100 yards into one of the bastion's underground tunnels.

The assault started under artillery cover and a supporting dive-bomber attack upon neighboring forts.

Earlier a Third Army officer said the Doughboys had won "a solid hold" on the northwest and southwest corners of the fort after a week of hard and bloody fighting.

On the south flank French and American soldiers of the Seventh Army beat their way eastward five to seven miles to positions on three sides of the copper mine town of Thilloit, 18 miles due north of Belfort and only six miles from the 2,398-foot Bussang Pass through the heart of the Vosges.

Battle of Holland In lower Holland, Allied forces closed in on the stronghold of Tilburg. Canadians established a bridgehead over the Leopold Canal west of Antwerp. Other troops fought to Ossendrecht, 14 miles above Antwerp.

It was another good weather day for Allied air power which yesterday cut loose with more than 6,000 sorties all the way from tank-busting battleline support to heavy bombing in the heart of the Reich.

Lt. Gen. Courtney H. Hodges was systematically breaking up the Siegfried line along a 30-mile front north and south of besieged Aachen. He widened his Ubach breach to seven miles at the base, wrested back a good part of the yardage the Nazis won in counterattacks yesterday, and hammered out new gains.

His troops pushed as far as the outskirts of Geilenkirchen, three miles north of Ubach. Pried out of Begendorf, two miles east of Ubach, they lashed out anew late yesterday and by-passed the town in a thrust a half mile to the north.

They pounded their way to a point a mile and a half down the road southeast of Ubach, and fought part way back up the shot-swept slope of Pillbox Ridge a mile and a half south of Ubach, regaining about half the ground they lost to a German counter-attack yesterday.

Other forces of the fighting First Army pushed on into the second day of their heavy-going drive to clear the Hurtgen fir forest belt of the Siegfried line, southeast of Aachen.

Artillery and Bombers American artillery and close-support bombers were working over the German gun positions which still made the Third Army's hold on Fort Driant difficult.

Some of the Nazi heavy guns had been pounding away from hidden emplacements as far as 20 miles beyond Metz, Associated Press correspondent Edward Ball reported. He said Thunderbolts located one such gun position and bombed shut the tunnel from which it was firing.

The Germans apparently had managed to get reinforcements up along the whole southern front and were counterattacking repeatedly in an effort to keep the battle back from the Rhine, whatever the cost in troops.

"Near Sivry, north of Nancy," the communique said, "the enemy regained some ground in a counter-attack."

For The Farmers Of Fayette County

DAIRY PRODUCTS REACH LARGE FIGURES IN U. S.

Fayette Cows Contribute Toward War Effort in Face of Drought

Regardless of the drought which reduced the supply of milk in Fayette County by virtually wiping out thousands of acres of pasture during the summer months, the thousands of cows in the county have continued to contribute their share toward the war effort by supplying dairy products for local consumption and large amounts for consumption outside of Fayette County.

The milk business has been one of increasing importance in Fayette and surrounding counties, particularly since establishment of one of the biggest creameries in the country at this point.

Butter from Fayette County cows has been supplied to the armed forces as well as to civilians at other points.

In the United States, during the first seven months of 1944, almost five billion pounds of whole milk was required to make the dairy products supplied to American allies, through the lend-lease, Red Cross and similar outlets.

This is in addition to over three and one-half billion pounds of milk needed to make the non-fat powder purchased for export through these same channels.

One of the major items among the dairy products was almost 97 million pounds of butter, requiring over two billion pounds of milk in its manufacture. Another item was nearly 179 million pounds of cheese which required over one and three quarter billion pounds of milk for its production. Evaporated milk, dry whole milk powder, and condensed milk were next in order of their importance.

Something of the magnitude of this contribution to the war effort is learned when it is realized that these purchases of whole milk products alone for lend-lease and Red Cross have required 10,500,000 quarts of milk every day of the entire seven months.

According to the National Dairy Council, the production of milk for this purpose alone would require the services of 56,445 men; each one milking, feeding, and caring for 20 good milk cows every day. On the same basis, 47,800 men would be required to milk and care for enough cows to produce the milk to make the non-fat milk powder purchased for lend-lease and the Red Cross. That is one of the contributions that the dairy industry on the home front is making to the war effort.

INCREASE IS SHOWN IN FARM EQUITIES

Agriculture's Financial Position Strengthened

A thirty billion dollar increase in equities of farm owners and tenant farmers during the present year seemingly has placed agriculture in a strong financial position, the agriculture department reported today.

H. R. Tolley, chief of the bureau of agricultural economics, said the major part of the increase was the result of higher prices and higher

WEIGHT TICKETS ESSENTIAL FOR AAA PAYMENTS ON SEED

Farmers who want the AAA poundage payment for harvesting red clover, alfalfa or alsike clover seed must submit, with their farm reports, a statement or weight ticket showing the kind of seed and the number of pounds of clean seed, it was explained at the AAA office here.

"A producer who sells his seed to a dealer need submit with his farm report only the dealer's statement or weight ticket, giving this information," it was said.

SOD WATERWAYS MEAN PAYMENTS

Sod Is Classified as a Real Soil Builder

Farmers who establish or maintain sod waterways will be assisted in carrying out these valuable practices by AAA conservation payments, according to Harry Silcott, Fayette County AAA chairman.

Silcott explained that grass sod is a soil builder. A sod waterway helps to control erosion, produces excellent hay or pasture, and provides an inexpensive method of simple drainage. Sod is recommended for breaks in waterways and to establish grass in narrow, steep or gullied draws.

"Fayette County farmers may earn 75 cents per 1,000 square feet for establishing a grass waterway and 25 cents per 1,000 square feet for maintaining a grass waterway," the county chairman announced.

In order to qualify for the AAA payment Silcott pointed out that the waterway must be wide enough to carry the run-off from the drainage area and must be at least 10 feet in width.

FEED GRAIN SUPPLY OUTLOOK BRIGHTENS

Increase of 15 Per Cent in Prospect for Next Year

The agriculture department forecast today that the feed supply per animal unit on farms on January 1 will be about 15 per cent above the 1943-44 crop year.

Total supplies of feed grains for the 1944-45 feeding year are expected to reach 129,300,000 tons, two percent below this year's supply but the third largest on record.

The number of hogs and chickens on farms are being reduced considerably, the department said, and the number of sheep, horses and mules are declining moderately.

Feed grain prices probably will average somewhat lower, the department forecast.

The outlook, it added, is for a near-record corn crop. The September 1 forecast was 3,100,000,000 bushels, slightly smaller than last year but the second largest crop on record.

Measured by the dollar value of physical goods, agriculture grew from a \$49,000,000,000 industry in 1940 to a \$70,000,000,000 one in 1944, he said. If the intangibles such as cash, deposits and savings bonds held by farms are added, he said, agriculture has jumped from a \$54,000,000,000 to an \$83,000,000,000 industry in four years.

On the Farm

By Thomas E. Berry

"I like to carry my spring hogs along on grass, with just enough grain to make them grow, so I won't have too much feed in them, when the time comes to 'fatten them out,'" says Eugene P. Cockerill, Washington C. H., Ohio. "I know that there are farmers in my community who get the gains on faster than I do, and they finish their hogs at an earlier age, but I don't think they make as much money," he continued.

Then he told me that his brother had made hogs weigh 240 pounds at 5-12 months of age, but that when he sold them, he had a lot of feed in them.

This suggests the perennial hog feeding problem that farmers have always had, slow or fast feeding.

I have often heard Grandfather tell about driving fat hogs to market from Hillsboro, Ohio, to Portsmouth, Ohio; and sometimes from Hillsboro and vicinity to Cincinnati, Ohio; distances of more than 50 miles; and the hogs made the trip on foot, and most of them arrived in pretty good condition; but those hogs were two and three years old, and some older, and many had been finished on "Mast," the acorns and nuts, of many kinds, that they picked up in the woods.

The type of hogs that were finished as yearlings; two year olds; and even older is "Out" and in his place is a low set, deep bodied, short legged, firm, heavily fleshed, compact hog with very short legs, and head, that couldn't walk a quarter of a mile, without being exhausted. This modern hog can be finished at five months of age, but it must go to market in some conveyance, and we have the conveyance in the form of farm trucks or trailer of some sort; and in many communities, the old-fashioned wagon that still has a place on many farms.

MOST OF WHEAT SOWN IN COUNTY

Completion of Work Seen in Another Week

One-half to two-thirds of the Fayette County wheat acreage has been sown, and the coming week is expected to see virtually all of the grain sown.

Rainy weather hampered the work a day or two, but was welcomed by the farmers for it means that wheat already planted will grow immediately, and that moisture in the soil may bring up the later sown wheat.

Reports as to the acreage sown vary somewhat. Some statements indicate that the acreage will be about normal, and others are to the effect that it will be several thousands of acres below normal.

CORN PICKING MOVES FORWARD

As result of the dry weather and the short crop, corn picking, which was started two weeks ago, is moving forward at a surprisingly rapid rate in the county.

Indications are that more of the acreage will be in the granary earlier this year than ever before, due to the speedy work of the pickers, and rapid headway made by huskers generally.

Final corn cutting ended this week, and the last corn placed in the shock was becoming very dry and the fodder of little value.

SOYBEAN MEAL APPLICATIONS MAY BE MADE NOW TO AAA

Soybean growers may apply for soybean meal at the AAA office here anytime now.

Details of the procedure under which producers who market soybeans they have grown can get soybean meal for their feeding needs are at the state office now.

Although applications can be made now, none will be approved until the soybeans are sold. Certificates for purchase of soybean meal will not be needed unless the farmers are unable to buy meal without them, it was said. The detailed procedure was approved by the WFA in keeping with the assurance given last April that soybean grower-feeders would be able to get meal in return for beans grown and marketed by them.

To be eligible for meal farmers need only to have receipts showing that their beans were marketed. Many farmers have been withholding sales of their soybeans because they have not known of that fact, the AAA chairman said.

Under the meal plan, which is designed to assure equitable distribution during the 1944-45 season, a portion of the available supply is subject to a set-aside order. The set-aside meal is allocated to growers who are also livestock feeders and who are unable to obtain from the trade

either their livestock require or the amount of meal that can be processed from the soybeans they have sold, whichever is smaller.

Grower-feeders may make applications on a monthly basis or for a period covering more than a month's requirement. Number of livestock and poultry on the farm and protein or mixed feed already on hand will be taken into consideration when making individual allocations, Silcott said. Certificates may be taken to any established dealer who can furnish the meal from his supplies or accept the order, and deliver the meal when it is available.

STATE GRANGE HEAD TO COME TO MEET

Pomona Grange Session Set For Thursday

State Grange Master and Mrs. Joseph W. Fichter will be guests at the Pomona Grange meeting Thursday at Marshall Grange Hall in Jeffersonville. The Thursday visit will be the only time this

PUMPKIN CROP IS SHORT ONE

Packing at Local Plant To Start Soon

The pumpkin crop in this part of Ohio, due to the extremely dry weather, is a short one this fall, and the pack will be far below normal.

It is expected that the Fayette Canning Company, which is now buying all pumpkins obtainable, will start packing within the next week or ten days, as the crop, must be gathered before killing frosts occur, and they may be expected within the next few days.

If the pumpkin crop is as short everywhere as it is here, the supply will be far short of the demand.

The Alhambra, palace and citadel of the Moorish kings, was built in the 13th century.

year that Fichter will be in Fayette County. They will present past deputy and past matron Mr. and Mrs. Ralph Nisley with jewels in recognition of the 13 years of service to the Grange.

Loren Hynes, county deputy, said he expected "a large class of candidates" to be initiated into the fifth degree at the Pomona meeting. W. J. Hilly, lecturer of Pomona Grange, said he had completed the lecture hour program, which will include representatives from each Grange.

THE WAR TODAY

By DEWITT MCKENZIE

The extent and fierceness of the battle which has grown out of the American First Army plunge through the outer crust of the powerful Siegfried line in the Aachen sector encourages the belief the impending general Allied offensive on the western front will develop quickly.

There's also a feeling among military experts on both sides of the Atlantic that if October produces its ordinarily good fighting weather we may see decisive developments. Among those subscribing to this view is "Veritas," official war commentator for the British Ministry of Information in London. He has this to say of the expected offensive:

"It will probably be stiff, unspectacular going at first, for there is a strong crust of German resistance based on skillfully prepared positions of great natural strength. But it is no more than a crust. There are a few veteran divisions of really good quality, but the newly formed divisions (or rather battle groups) consist of a stiffening of SS men (Elite Guardsmen) of Hitler youth, while the remainder are of poor physique and morale and almost untrained. The military value of such reserves as there are inside Germany is negligible.

"Major operations (as distinct for the later stage of guerrilla warfare) may continue for some months yet, but October—which usually provides reasonably good campaigning weather in the west—is likely to see developments of decisive importance."

That sounds like good medicine from a well informed expert. Eisenhower has been rushing preparations for the all-out offensive. Now comes the battle of Aachen to invite a quick launching of the big drive. The Germans have thrown every available resource into the defense of this broad highway to the heart of the Reich. As a result there has developed one of the bloodiest engagements of the invasion.

This added strain on Hitler's terribly depleted reserves naturally renders the rest of his 460-mile battlefield more vulnerable, and one would expect Eisenhower to take advantage of that fact by making a general attack to put heavy pressure on all points of the Nazi line. This would tend to keep the Germans off balance, and must result in uncovering a weak spot which could be pierced—unless indeed it already has been found in the Aachen area.

As our own Secretary of War Stimson says, the Nazis "do not have the full manpower needed for the defense job." The vastly superior Allied striking power insures victory.

However, we already have plenty of evidence that there's likely to be heavy fighting. Prime Minister Churchill told the House of Commons yesterday that "a good deal of blood is going to be shed in the next few months." That's bound to be so long as the Germans fight with backs to the wall.

JAP SUBMARINE ATTACKS TRANSPORT AND MISSES; EVERYONE LEFT JITTERY

(Continued from Page One)

ance of a field over which the wind is whipping snow.

After I went below and shaved, I returned to find the chief steward pacing out his usual mileage for exercise on deck. He brought me a cup of coffee. (That was merely a friendly gesture; such incidents are not common to Army transports). Buoyed by the hot coffee, I decided to go below and awaken some of my late-sleeping companions, who had slept the night in the "cabin-filing-system" bunks.

I was going down the steel ladder when the alarm began to ring—long, incessant, shrill, without a break.

It was the gun alarm. Everyone came tumbling out. We felt uneasy on our feet and we knew that the ship was swerving.

Torpedo!

Gen crews raced to their positions. Those without assignment

HOG MARKETING TAPERS OFF AS FEED INCREASES

Support Price Cut Causes Little Concern While Buying Hits Ceiling

By DEAN McCUMBER

CHICAGO, Oct. 7.—(AP)—With buyers paying ceiling prices for all hogs of slaughter merit, nobody worried about the \$1.25 reduction in support prices, effective October 1.

The War Food Administration announced the support price at Chicago would be \$12.50 for good and choice 200 to 240 pound weights. For other markets the price will be the normal differential for each individual market in relation to the Chicago price.

Salable arrivals of only 7,000 on Monday were reported smallest for that day in years, except for a Monday in November, 1938, when labor trouble made marketing a purely nominal affair.

Supplies Taper Off Unloads picked up slightly on Tuesday, but fell off Wednesday and dropped below Monday's figure on Thursday. Salable supplies at a dozen leading markets during September dropped 275,000 below the total for the same month last year.

Market sources said when it became apparent in August that feed supplies would be fairly abundant, traders realized satisfactory ceiling prices would encourage pork producers to hold back most of the winter and spring crop for additional fattening.

Contrary to the seasonal trend, marketing of all livestock classes declined during the first two sessions of the week. Receipts usually start increasing in late September and marketing volume is stepped up steadily once the movement begins.

Cattle Supply Drops Cattle receipts out of the southwest are tapering off, making the northwest and principal source of range cattle supply.

Traders believe the present scarcity of receipts is only temporary and that peak seasonal movement will get under way during the next month or six weeks. The corn-hog ratio for the week ended September 30 was unchanged from the previous week, computed at 12.5. For the comparable period last year it was 13.9.

The cattle market generally was very active all week with top kinds steady at \$18.35. All other grades of steers closed 25 cents higher. Hog receipts for the week were at or near a record low in several years and prices continued firm at the two ceilings. Closing lamb prices were highest in five weeks as good and choice natives ranged from \$14.50 to \$14.85, the top, with bucks out at the dollar discount.

remained below deck as directed in drills that at the time seemed silly to some of those aboard. We stood and waited.

The seconds paced past like milestones on a hay ride. You heard a thumping and couldn't tell whether it was your heart or that of the man standing next to you.

Close by, someone muttered: "A hell of a morning to try to get into a life boat."

The captain said something into the loud speaker piped below decks. We were under attack by a submarine. At last, after what seemed an eternity, the ship master announced that immediate danger was past, but that we were "not to relax too much." There were smiles all around and mention of breakfast that had been forgotten. We went to the table in our life belts. Did you ever tackle a grapefruit while wearing one of those contraptions?

I sat near the captain, close enough to engage him in conversation, but there was little of it. The submarine had attacked from starboard, tossing one "tin fish" and probably two. The first deadly steel projectile passed astern. The indicators marked up the second.

The bridge flashed word of the attack. We thought a destroyer or

a plane might answer. We spent the morning looking for them.

DAWN—AND A CATALINA!

Dawn the next morning brought a Catalina.

The sight of that great flying boat, its fat belly filled with bombs ready to be dropped on the submarine, brought a lump to our throats and a somewhat subdued cheer after a night of pretended sleep.

During the daylight hours that followed the first attack, we imagined the Jap would not give up so easily when he had a "sitting duck" in his periscope sights. Either he would follow us, we surmised, or he would race ahead, lie in wait and take another crack at us in the early morning semi-darkness. All day we walked the deck in life preservers; the crew inspected the ropes on the lifeboats; ship officers appeared with their pistol belts and ammunition. Somehow the hours passed and another night came on.

Lt. Craven, transport commander invited a colonel and Maj. Bowie, Maj. W. Earwaker, of Brisbane, Australia, and myself to a game of rummy in his cabin. We didn't exactly play; we tossed the cards around, not even bothering to keep score. When the game finally broke up, the excuse being that we were sleepy, I went outside and lay down on my blanket on the deck. Hours after I awakened and was thankful that I had slept, even though the deck planks were pretty hard.

Below me on the deck, I saw the chief engineer, the first time I had seen him in two days. He was sleepy-eyed and slightly ruffled. "Slept in my clothes," he grumbled.

"Say," he brightened, changing the subject. "Look how much weight I have lost on this trip. Been on a diet to reduce."

He pulled out his pants waistband to prove his boast. Right behind him stood the little black-bearded man from Ecuador who lends a hand with the mess. He broke into a wide grin and pointed.

We looked up. Off port was the huge flying boat, blinking a friendly and reassuring message to the bridge. Round and round the Catalina flew, this way and that, its crew peering down into the depths of the Pacific, ready with the "eggs" if they sighted a periscope.

Word spread around the ship like wildfire. Men came boiling up from below half dressed to take a look at "our friend," as they called it.

The bell rang for breakfast and the meal was a gala even, not the ordeal of the morning before when the food was tasteless. Ensign John C. Burgess, 20 years old and a graduate of Brown University at 19, fell out of bed from the upper tier in our stateroom when he heard the Catalina had arrived. He came on deck limping, glad that he hadn't broken a leg at last.

As I write this, I can hear, now and then, the roar of the plane's powerful motors as it crisscrosses back and forth over the ship.

WAR VETERANS GET PENSIONS FOR DISABILITY

Three Different Types Made Available Based on Degree Handicap Suffered

By JAMES MARLOW.

WASHINGTON, Oct. 7.—(AP)—There are three kinds of pensions for war veterans. Two are for disability due to military service. The third is for disability not connected with military service.

Group One: For those disabled in line of duty there is a pension based upon the degree of disability. This could be anything from a stiff wrist or bronchitis to loss of an eye or limb.

The degree of disability ranges from 10 percent to 100 percent (total disability).

These pensions are paid at the rate of \$1 per percentage point plus 15 percent.

For example: Tom Smith came out of the service with bronchitis. If it was chronic but mild, it might be rated a 10 percent disability. He'd receive \$10 monthly, plus 15 percent, or \$11.50.

If it was chronic but severe and was rated 30 percent disability, he'd receive \$30, plus 15 percent, or a total monthly pension of \$34.50.

The degree of disability is determined by a board of specialists within the Veterans Administration which pays the pensions. The board consists of a doctor, lawyer and occupation expert.

A man discharged as well and able, in the opinion of army or navy doctors, may file a claim for disability pension any time after his discharge if he thinks he has a just claim. He should start this procedure with the nearest regional office of the Veterans' Administration.

Group Two: Veterans who have lost some part of the body—like an arm, leg, hand, eye—get a flat, fixed pension payment. And this is in addition to the pension paid for disability on a percentage basis as outlined in Group One above.

For example: The flat pension payment to a man who has lost an eye, or leg or arm is \$35 monthly. Suppose he lost a leg. If it was amputated at the hip, the specialists' board—under the disability pension program in Group One—would count that a 90 percent disability. So he'd receive \$103.50 in disability pension (\$90 plus 15 percent) and the flat \$35 pension for loss of the leg.

But—in the case of more serious losses, the flat, fixed pension makes up the total pension payment and there is no payment for disability on a percentage basis.

Some of those fixed, total payments are: For the loss of both hands or both feet, or one hand and one foot, \$165 monthly; for the loss of both eyes, or both hands and one foot, or both feet and one hand, \$190; for the loss of both eyes and one hand or one foot, \$215; for the loss of both eyes and both hands or both feet or one hand and one foot, \$265; for the loss of both hands and both feet, \$265.

This should be noted: Loss of "use" is considered the same as "loss" in specific payments for disability.

Group Three: There is a flat \$50 monthly pension for a veteran disabled after military discharge by a cause not connected with military service.

There are rigid conditions attached to this pension.

To get it the veteran must: Be permanently and totally disabled; have an annual income, if not married, not exceeding \$1,000 or, if married, not exceeding \$2,500; have had at least 90 days' mili-

ture it will give you. It stood the drought this year, and we had a very severe drought.

SLOPPING HOGS ON GRASS

—That's what Mr. Cockerill does and he gets a rapid growth. We used to be in the stock hog business and I have often heard Father say that is surprising how soon a pig will go to 100 pounds, on good clover and slop, especially if there is some skim milk in the slop; and you feed just a little ear corn, only an ear apiece twice a day. When we would sell these 100 pound hogs Father would often say, "Now let the next man make as much clear money on them as I did. I almost found it."

GOOD RECORD FEEDING HOGS—B. G. Spargur, Hillsboro, reports fattening 37 hogs that averaged 237 pounds each, when they were just two days over five months old. How is that for a record? Can you beat it?

These hogs were on a self feeder, where they got a well balanced ration of corn and tankage and meat scraps mixed together; then they had the run of 12 acres of clover with water close to the feeder. "I never slopped a hog in my life," Mr. Spargur said, when I asked him if he did some slopping, in addition to the feed, given in the self feeder.

Since we know that the fastest gain is the most economical gain, in most cases, Mr. Spargur surely did all that he could do, to make some money on his hogs, and he made a little, but feed was high and the price of hogs low, so he didn't do as well as he should have done.

A lot of farmers are in that situation now. Their city cousins think they are getting rich, raising and feeding hogs, but the price of feed is too high, and the price of hogs too low, to make much money feeding hogs now. Prices are "out of line" in the hog enterprise. There is no doubt about that.

THREE BRANDS OF WHISKY TO BE RATION FREE SOON

COLUMBUS, Oct. 7.—(AP)—Liquor Director Don Fisher announced today three brands of blended whisky would become ration free effective next Monday.

They are Pennbrook, Cedarbrook and Three Feathers reserved.

Greatly increased inventories of the brands during the last 30 days made the action possible, Fisher said.

The three brands will be discontinued when present store and warehouse stocks are sold, Fisher added.

Wool clothing should be suspended from hangers, never from hooks, and should be worn alternately so as to give each article a rest.

MISSING WCH BOY SENDS AIR MEDAL

Lt. Stanley Henceroth Mails Award Home to Parents

Mr. and Mrs. John W. Henceroth, 605 East Temple Street, today have the air medal awarded their son, Lt. Stanley W. Henceroth, who has been missing in action since September 12.

Lt. Stanley Henceroth

Lt. Henceroth was awarded the medal August 25 and mailed it home to his parents only three days before he was reported missing. The citation accompanying the medal reads:

"For meritorious achievement while participating in sustained bomber combat operations over Germany and German occupied countries. The courage, coolness and skill displayed by these officers and enlisted men upon these occasions reflect great credit upon themselves and the armed forces of the United States."

Lt. Henceroth is a co-pilot on a bomber. He has been in the service since March, 1943, and overseas three weeks before he was reported missing.

tary service or been discharged for disability if he served less than 90 days. And he can't get the pension if the disability resulted from misconduct.

All these pensions are free of state and federal taxes.

IT'S MAGAZINE DRIVE AGAIN AT HIGH SCHOOL

18th Annual Drive Will Start Monday; Classes Will Compete

Beginning Monday, WHS students will be magazine conscious for two weeks, for the 18th annual magazine subscription drive is slated to begin then, Stephen C. Brown, high school principal, announced today.

Always a time of keen competition and friendly rivalry between classes, the drive this year is expected to be no less a contest. Each class strives to rank highest in number of sales. Individual awards are made to students with the highest sales records also.

Last year, Mary Vrettos, daughter of Mr. and Mrs. Nick Vrettos, 430 East Market Street, carried off individual sales honors with a record of \$202.50 in subscriptions sold to her credit.

Representatives of the Curtis and Crowell publishing houses will speak at an assembly Monday morning, Brown said.

Austria Reborn

Hitler's annexation of Austria is to be cancelled. According to intimations from Washington it will have a government separate from Germany during the occupation, and presumably will get off more easily.

Austria will then be restored to life after six years under the Nazis. Thus one of the oldest nations of Europe will be replaced on the map. For centuries Austria bore the brunt of the Turkish attack, which might otherwise have conquered most of Europe. Her steadfast opposition to Napoleon helped at last to bring about his defeat. The qualities of the Austrians themselves deserve kindly treatment. All this the United Nations occupation will bring.

The fundamental problem will still remain: how is Austria to survive economically, with trade barriers cutting off commerce with her neighbors? It was failure to solve this problem that made many Austrians accept annexation to Germany. The problem will remain after Hitler's fall.

Plenty of Coffee

With a warm sense of gratitude, Americans learn that threatened coffee rationing has been averted. Brazil, that great coffee-exporting nation, gives assurance that her exporters will not raise the present price ceilings and will guarantee shipment of 132,000,000 pounds a month through December.

Americans are people who can endure almost anything in the way of hardship as long as they can get their morning coffee. And in these times another cup or two in the evening is all to the good. Though this may not be the best of all possible worlds, it is certainly not the worst. Doubtless should think of Middle Europe, where so many people lately have been reduced to an imitation coffee made from burnt bread crusts.

There is reported to be about 670,000,000 pounds of coffee at present in this country, a four-months supply, in contrast with the 201,000,000 pounds on hand when coffee was rationed briefly two years ago. And there is no imaginable shortage likely unless heavy shipments to Europe, as the war draws to a close, should tighten the market temporarily. The British have been very sporting about their own deprivation, deliberately taking munitions instead of coffee.

Young People's Job

Wars must be won, and factories must run, but the big job for boys and girls of school age continues to be a job of education. Otherwise the rising generation would be thwarted from developing itself and realizing its future possibilities. The war against ignorance is one that never ends. Whether for war or peace, development of the minds of boys and girls is the main job for them and for society in general.

There has been fear that the war would unduly interrupt educational programs this year. But fortunately, observers say that this is not occurring. The trend of boys and girls toward war jobs, which began

Grab Bag

One-Minute Test

1. How did Boston, Mass., get its name?
2. For whom was the month of March named?

Words of Wisdom

Give me love and work—these two only.—William Morris.

Today's Horoscope

You are scrupulously honest, if today is your birthday, faithful to duty, sincere and say just what you mean. You are studious and intellectual, well informed, a clear, keen thinker and lucid talker. Do not marry young; you will judge people differently and by different standards as you grow older. Your next year will be somewhat trying and difficult. Be on the lookout for business frauds, deception and misplaced documents. Be guarded in speech and writings. Some happiness will be relaxed. Born today a child will develop artistic and literary talents; be fond of travel and successful as a lecturer or teacher.

Hints on Etiquette

According to one authority a man wears his wedding ring on his little finger. In many double ring ceremonies taking place now, however, the men are wearing the ring on the same finger as the woman—the third on the left hand.

Sunday Horoscope

Sincerity, frankness and assurance are the chief characteristics of the person who has a birthday today. You are thorough in your work and usually succeed. You are quiet and reserved, do not like social life except in your own circle. With your friends you are affable and entertaining. Benefits through novel or uncommon businesses are promised you in the next year, but do not indulge in doubtful speculation. A threat exists of disagreements with partners and or elders. The child born today will crave excitement and may suffer through the lure of the senses, especially if he or she is born early in the morning. The late afternoon or evening is more propitious.

One-Minute Test Answers

1. From Boston, England.
2. From Mars, Roman god of war.

three years ago, is reversed, and more than a million actual or potential student workers are reported as flocking back to the high schools.

This wholesome trend is not accidental. It comes as a result of a national educational program in which schools, the press, civil organizations and other important groups have made a job of persuading the boys and girls that they would be more valuable to their country, themselves and their parents, if they remained in school. In America this can be done. And it is especially important because so many million young people in other countries are condemned, by war, to grow up in ignorance.

Bogged Down

People who have expected the war to end next week or next month are now growing more sober and realistic. The bold effort of the Allies to swarm across the lower Rhine, smash or outflank the German West Wall, and then push toward Berlin, was a fine undertaking, but it was stopped half way, at least temporarily. Now the rains are coming and terrain turns to seas of mud. Anything is possible, but it may be a matter of waiting until the ground is frozen and then striking again.

That waiting in the rain and the mud will probably be the hardest part of the task. People at home, in their warm beds, may do some profitable thinking about it. A little pepping up of their own morale, and faithful observance of duties they may owe to those men at the front in the way of letters and comforts, should help.

LAFF-A-DAY

Diet and Health

Lack of Physical Fitness

By LOGAN CLENDENING, M.D.

THE REPORTS of the medical selective service boards on the physical condition of American youth and the findings of some of our universities to the effect that a large percentage of youths in the

Dr. Clendening will answer questions of general interest only, and then only through his column.

freshman class could not swim or chin themselves five times and did not have the endurance to do simple calisthenic exercises indicate the need for intensive and deliberate training of the bodies of our young generation.

A program of daily exercise should be instituted certainly in High School period, and possibly in grade school. As much as I am opposed to compulsory military training, the findings of the boards have been so revelatory and so utterly surprising that I am receptive to the idea for at least the periods of the summer vacation in the last two high school years. As a rough measurement of criteria of physical fitness we may take two quite definite and measurable standards—posture and endurance. It was endurance which came out as so lacking in the tests in the University of Illinois students. That a young man of 18 could not swim 50 yards, that he could chin himself on a horizontal bar less than five times, that in a prone position on the floor he simply did not have enough endurance to raise his legs straight in the air 20 times—that this could be in the United States of America and not in one or two youths in the freshman class of a University, but in 40 per cent seems to me decidedly cause for alarm and correction. As things look now we are obligated to police the world for half a century and we cannot do it with weaklings.

Posture and Endurance
Both posture and endurance can be improved by planning. And if exercises are planned to that de-

liberate end the attainment of good posture and endurance will produce a well rounded physical specimen, not a sort of freak muscle man. We can afford to take a page from our enemy and imitate the old German turnerism. The Swedish Ling system is much the same.
The two functions of muscle which are capable of training in order to accomplish the objects we desire are tone and coordination. Tone is that function of muscle whereby it remains under sustained tension. It is the same thing as the tone of the string of a musical instrument. You cannot get a good tone out of a string that is not tense. Tension is necessary to maximal power of muscular contraction. It produces the maximal efficiency and economy of energy. It can be trained by exercises—which require sustained tension of the muscles.
It may be surprising, but it is no less true, that sustained tonicity does not produce fatigue, but on the contrary. The person who is always the most fatigued is the one who is sitting in the rocking chair all day and can hardly get up courage to make the attempt to get up and go down to the post office.

Muscular Tone
Tone is of importance in respect to adequate stabilization of the skeletal system. In accomplishing good posture some training is necessary in muscular coordination. It is necessary to have toned muscles if you are to have muscles which act with coordination.
"The maintenance of posture," says an eminent authority, "is an example of the nicety of adjustment between various parts of the body to fit the new position."

Good posture eliminates stresses and strains. The center of gravity of a human being is at the level of the second lumbar vertebra—roughly at the waist line. The line of gravity runs from about two inches in front of the ankle joints to the topmost part of the skull.
No letters mean loneliness and loneliness is not easy to bear. To see the man in the next bunk happily perusing his mail while you yourself are empty handed—but you can imagine that, can't you?
I'm just a civilian down here and I wouldn't know a hardship if it came up and hit me in the face.
But, thanks to the natural friendliness of these men, I've been allowed to know them. And

Third Haven by WARREN HOWARD

CHAPTER THIRTY-NINE

DAN WAS sitting on the porch rocking when Russell came home. He had gotten away from Anne and her doctor as soon as he could. Dr. Raynor had been very kind, but it was like being talked to by someone out of another world. Once Dan had broken away he'd come to sit here on Russell's porch, and he seemed to breathe freer. He had come back to Talbot because he couldn't get Anne out of his mind. He had come back hoping desperately that there must be some way of showing Anne that he really loved her. Now he could laugh at that crazy idea. Anne wasn't of his world. She didn't even speak the same language. Now he had seen her with Dr. Raynor, who wanted to order champagne instead of sodas, he knew where he stood.

It was funny, but he accepted the famous doctor as he had learned to accept most of his reverses. Far from hating the genial, successful man, he liked him. It was easy to see how any girl would love him if he offered himself, and there was no doubt of his love for Anne. It was written all over his handsome face—and how handsome some that was! Dan smiled to himself. Dr. Raynor was like Russell, only more so. That expressed the thing in simplest terms. Dr. Raynor was the exact opposite of himself. There was no question of a choice between them.

He felt a little sorry for Russell. That was in his mind as he watched his brother drive up and park his car in the garage at the side of the house. As there was no light Russell didn't see him until he came right up on the porch. Then he stopped and cried out, "Dan!"

Dan stood up. "I'm back or not, just as you wish."
Russell flung an arm about him. "You poor kid. Don't you know yet that I always want you? It isn't home unless you're here."

"Even when you lay me out as if a steam roller had gone over me?"
"I'm sorry for that. If you'd only not run away, I'd have told you."
"I know. I stuck out my chin and even asked for it."

Russell patted his shoulder. "It won't happen again. You can depend on that. How long have you been back home?"
"Just a few hours. I knew you'd be here."

"Why didn't you go into the house? You got in before. Don't tell me you really wondered if I wanted you."

They went into the house and Russell turned on lights. Going into the kitchen, he came back with two bottles of beer which he waved triumphantly.

"Here they are, left from—before. Come on, see if we can get you something to eat. I haven't been eating home, but there's still the canned goods department to work on. I bet you're hungry."

Dan smiled, his strange, wistful smile which had touched Anne. "I could eat, too. It seems years instead of hours since dinner. Laura and I were to see Mrs. Reynolds. She's in Weston hospital now and the famous Dr. Raynor has come to operate on her."

"I know Dr. Raynor."
Russell raised his head from the job of lifting a canned chicken onto a platter. For a moment he just stared, and Dan felt he could almost see the legal mind at work. Russell's voice was quite colorless as he said:

"How do you know Dr. Raynor?"
Dan's smile widened. "I had ice-

cream tonight with him and Anne at Johnson's."

Russell's laugh was quick, relieved. "Of course. How else could you know him?"

"You're right, Rus. I've been in New York, but we don't exactly move in the same social circle. I can't picture Dr. Raynor riding on a side-door Pullman."

"I don't mean that. Don't be sensitive or—this time I'll have to spank you by way of making you behave." His eyes glowed with affection as he said it. "Here, start carrying things in. Even if it's only a snack, we're going to do it in style. No bread, though. You'll have to pretend you're on a diet."

"Do I need to get any thinner?"
Russell patted his shoulder. "This time I'll fatten you up. Let's make coffee. If it keeps us awake, so much the better. I want to talk to you all night. I want to hear where you've been, what you've done, and—why you ran away."

Dan laughed as he held the platter up. "I haven't been anywhere. I haven't done anything. I've just wandered around. Lord, it was hot."

Russell caught his arm. "Let's start in on beer and have coffee when it's ready. You eat while I do most of the talking. Goodness, it seems ages since we've eaten together. Let me see, Anne stayed at the inn until—yes, it was Fourth of July. That day Mrs. Reynolds fell out of her chair and it seemed like a stroke. Laura got the scare of her life, because she couldn't get her mother up or get a doctor. Everyone was down on the Strand watching the races. Luckily, Laura got Anne, who ran right back and worked wonders. Dr. Banning says she saved Mrs. Reynolds by knowing just what to do. It seemed a miracle at the time, but now we know Anne is a nurse. She's assisting Dr. Raynor in operating tomorrow."

PACIFIC DIARY Entertainers Meet

By LARRY ADLER

Internationally Known Harmonica Expert

SOMEWHERE IN THE SOUTHWEST PACIFIC — It is called "Please Let Me Hear From You."

I don't know whether or not the title conveyed anything personal, but it's a good title.
Write to your son, daughter, relative or friend in service. Write, write and write some more.

Tell him the news, from your point of view. Not the bad news, the good news. Things that'll make him look forward to coming home rather than dread the prospect.

No letters mean loneliness and loneliness is not easy to bear. To see the man in the next bunk happily perusing his mail while you yourself are empty handed—but you can imagine that, can't you?

I'm just a civilian down here and I wouldn't know a hardship if it came up and hit me in the face.

But, thanks to the natural friendliness of these men, I've been allowed to know them. And

if my trip down here did nothing more than to induce you who read these lines to write an extra letter to an extra guy every day every week—that fact alone will constitute a great reward.

Meets Comedian Sorrell
Fell in with three Aussies who were watching the anti-aircraft practice. Went with them to their base to say hello to their own comedian, John Sorrell, who appeared with our show the other night.

Sorrell is a breezy comic, very fast and with a delivery reminiscent of the Cockney, he hopes to come to the States after the war. He introduced me to his C. O., Col. Vincent Schneider, of Melbourne, Australia.

We chatted happily about Australia, which I know well from a tour there in 1939, and of which I am very fond.

As I was leaving, Schneider said casually, "Take this along, might like it."

It was a huge native bow with three arrows, the size of junior spears. The kind of souvenir that is very scarce and I believe that Schneider prized it highly—which makes his gesture typically Australian.

I stopped in at the battalion with whom Jack and I lunched yesterday. A GI show was being put on by Seymour Frank and Bill May-

er, both of Philadelphia. Frank's part was a demonstration of mass hypnotism with about 10 men on the stage.

It was so successful that one man in the audience fell into the hypnotic sleep and was busily responding to all the suggestions Mayer was giving the men.

It was highly amusing, especially when Mayer told one of the men that he was the company commander, told him to give a pep talk to the men. The soldier, a pfc, promptly assumed a gruff voice, launched into a pep talk.

"And remember, men," he concluded, "when you go up on that beachhead, I'll be behind you, far behind you." The men roared and whooped delightedly.

I left, got back in my nice, open top jeep and went merrily down a road that yesterday was muddy, today dust.

But as the boys say here, New Guinea is the only place where you can be in mud up to your hips and have dust blowing in your face.

NEGOTIATIONS ARE ON TO BUY CUBAN SUGAR, REPORT

WASHINGTON, OCT. 7.—(AP)—The sugar industry cocked an ear today toward the state department, where, informed sources say, negotiations for the purchase of Cuba's sugar are under consideration.

Cuba has been negotiating several weeks for sale of its 1945 and 1946 crops to the United States. But Cuba wants \$3.40 a hundred pounds,

Washington at a Glance

By JACK STINETT

(Third of four articles on presidential press conferences.)
WASHINGTON — War has changed presidential news conferences some, but there's very little change in conference mechanics. Attendance today ranges from 80 to 100 or more, depending on how strongly news noses smell the prospects of an important story.

The President holds his conferences on Tuesday at four and Fridays at ten. These hours were selected to divide the news evenly between morning and evening newspapers. About twenty minutes before conference time, the reporters start drifting into the White House grounds and making their way toward the west or executive wing.

William J. Donaldson, Jr., superintendent of the House press gallery, who, probably knows the faces of more newspaper men and women in Washington than any other person (he doesn't bother with names, calling everybody "Raskob" but don't let that fool you into trying to sneak by him) invariably is chief greeter. He's flanked by

White House policemen and Secret Service guards.

Once inside the reporters drift around the lobby, piling hats and coats (in winter) on the great cracked mahogany table that dominates the anteroom. Minutes before conference time, they start crowding up at the door that leads through a little corridor—like room to the President's office. By conference time, the line looks like Saturday night at a sell-out movie. The President almost invariably is late.

The door opens and the line moves through and spreads out against the rope that spreads from the President's gadget-laden desk to the walls. The rush is to get next to that rope because except for press association men and a few "specials" who are White House regulars, it's first come, first served.

In a ring behind the president are the Secret Service guards. As the first comers arrive, the President, lolling back in his big leather chair, in shirt-

sleeves in summer and invariably puffing away on his long cigar holder, starts a private chat, frequently filled with wise cracks and often demonstrating an amazing knowledge of trivialities that have been press corps talk but not news.

With the cry from the rear, "All in," the conference opens. The President states or reads what he has to say. After that come questions and answers. It's hard to imagine anything as informal as that between the chief executive of a great nation and a group of reporters as these conferences. On most occasions it's very apparent that the President enjoys it.

Whenever there's a lull in the news conference or possibly when by prearrangement, the President wishes to cut it off, there's a cry of "Thank you, Mr. President."

The doors swing open and the rush for telephones and typewriters begin. The regular semi-weekly press conference is over for the day.

AUTHORITIES at Columbus, O., hold Harry H. Herron, 29, above, following his reported confession that he beat and fatally injured his niece, Ardella May Brecht, 21-month-old daughter of his wife's sister. In admitting the crime, Herron told police detectives that he was unable to sleep because the child was crying. Police said he then threw a shoe at her, striking her in the stomach. Later, they said he admitted picking up the child and whipping her. The child died on the way to a hospital. (International)

JAP BRUTALITY against natives on Guam is told by Juan Gabrera, 16, left, and Beatrice Flores Perez, 15, as they have their bayonet wounds dressed by Joaquina Siguenza, a native nurse. Of 11 persons bayoneted and thrown into a bomb crater they and one other man, since unaccounted for, alone survived. At the same time 51 other natives were beheaded and left in open jungle graves. (International)

Tigers Swamp Lions 39 to 6

A second period, when the WHS Blue Lions ran wild against Greenfield's Tigers, and a brief aerial attack in the early part of the last quarter, were about the only bright spots in the memory of the crowd that packed the bleachers of Gardner Park Friday night for the annual homecoming game in which the Tigers swamped the Lions under a 39 to 6 score.

Lion backers were given something to cheer about intermittently throughout the game,

but on the whole they had to be content to hope for the best as they watched the Tigers, sparked by brilliant running by Mercer, romp down the field to pile up a total of 259 yards on the ground. The defensive play of Whitmore, shifted to tackle from end, and Gray, backing up the line, stopped many a Tiger runner. Little Charles Burris brought the WHS fans to their feet with a sprint of 25 yards, that rivaled anything Mercer had displayed in the last period, only to have it nullified with a 15-yard penalty. Taking the ball on about his own 15 yard line, he zigged and zagged through the middle of the line like a rabbit in a briar patch before he was swamped under by the converging Tiger backfield.

The passing combination of O'Brien to Boylan went into high gear in the first of the last period and had put the Lions in scoring territory when, after two successful efforts, the third toss was intercepted by Williams who raced 75 yards for a touchdown.

The Lions took the opening kickoff and after failing to make any impression on the Tiger wall, had to kick. Using straight football, featuring line smashes by Williams and end sweeps by Mercer, the Tigers marched down the field for their first touchdown within five minutes. The next five minutes was a duplication of the last, and at the end of the period the score was 13 to 0 for the Tigers. One attempt to rush for the extra point was blocked.

Coming back from the intermission, the Tigers pushed across their third touchdown with Williams and Mercer doing the ball carrying behind solid walls of interference.

In the last period, the Tigers starting on the Lion 24-yard line went to the 2-yard line on a pass from Mercer to Raikes. Williams took it over. The buck for the point failed. Mercer added another six points with a 13-yard run around his own right end. Williams ran over the extra point.

The Lions loosed their passing attack in desperation and had gone from the shadows of their own goal to deep into Greenfield territory when Williams grabbed a toss from O'Brien intended for Boylan and dashed 75 yards over the goal line without having laid hand laid on him. Just before that threat had been nipped, O'Brien shot a long one to the reliable Boylan that raised hopes of the Lions fans. They had seen two just about like it gain 22 yards and 15 yards. The third went straight to the bull's eye but bounced to the ground.

GRAIN MARKET NEWS SUMMARY

CHICAGO, Oct. 7.—(AP)—Grain futures were fractionally lower in quiet early trading today. Offerings were only moderate but there was a lag in buying. Corn and rye led the early declines.

Wheat opened unchanged to 1/4 lower than yesterday's close, December \$1.64 1/2-5/8. Corn was unchanged to 1/4 lower, December \$1.12 1/2-1/4. Oats were unchanged to 1/4 lower, December 62 1/2-1/4. Rye was unchanged to 1/4 lower, December \$1.06 1/2-1/4. Barley was unchanged, December \$1.65.

DAY'S ACTIVITIES IN WALL STREET

NEW YORK, Oct. 7.—(AP)—Fractional advances had a shade the best of the price argument in today's early stock market transactions.

Mail order and chain store securities had the benefit of September summaries disclosing substantial increases in sales over a year ago. For major companies in these lines the expansion ranged from 4.2 per cent to 400.8 per cent.

Brownies Win Third Game, 6 to 2

By JACK HAND

ST. LOUIS, Oct. 7.—(AP)—Unless the St. Louis Cardinals snap out of it quick, the Ragamuffin Brownies are going to complete baseball's big 1944 surprise by adding a first world championship to their first pennant victory.

Heading into today's fourth game of the neighborhood rivalry, the "Rags to Riches Kids" are hitting a thin 170, fielding a wobbly .950 but leading the Red Birds in the all-important detail of two victories to one. Jack Kramer was responsible for yesterday's 6 to 2 American League triumph.

With the forecaster predicting fair and cooler weather, a contrast from yesterday when most of the 34,737 fans persisted in the 88-degree temperature. Skipper Luke Sewell is ready to go with Sig Jakucki, a tomato-faced right-hander "pick-up" from a Houston shipyard.

He will be opposed by Lefty Harry Brecheen whose record of 16 victories and 5 losses was one of the best in the National League. Jakucki's last outing was a win

in last Sunday's pennant winning game when the Brownies made it four straight over the Yanks.

Brecheen likewise hurled the flag clincher for his club in a Boston relief job.

Stopping the Brownies appears to be largely a question of stopping George McQuinn, the graceful first sacker from Alexandria, Va. McQuinn, "a ball player's ball player" has driven in four of the 10 runs his team has scored. Gene Moore, his "roomie" on the road, has scored three times on McQuinn's wallpops.

Jack Kramer rated equal billing on his excellent exhibition of "clutch" pitching.

A two base error by Vern Stephens on Johnny Hopp's grounder put the Red Bird center fielder in position to score an unearned run in the first when Walker Cooper singled. Again in the seventh a wild peg by Don

Gutteridge let Whitey Kurowski move to second and Marty Marion's single was all that was needed for a second unearned tally.

Moore's back-to-the-wall catch on Stan Musial's drive in the eighth and another save by the veteran outfielder after a long run on Kurowski's fly in the same frame helped Kramer out of a hole but he did most of the work himself, striking out 10 men.

Loser Ted Wilks was lucky to escape trouble in the second when he loaded the bases on walks but whiffed Kramer. Successive singles with two out by Moore, Stephens, McQuinn, Al Zarilla and Mark Christman chased Wilks, counted three runs and a wild pitch by reliever Fred Schmidt permitted a fourth to come across in a rally that meant the ball game.

The Brownies added two more off Al Jurisich in the seventh.

Today's game will be the last in which the players share. With 35,000 expected, the pool which now totals \$231,215.13 will top \$300,000. The remainder of the

Junior Series Opener Won By Colonels

By Hugh Fullerton, Jr.

LOUISVILLE, Ky., Oct. 7.—(AP)—Louisville's American Association Colonels will clash with the Baltimore Orioles in the second contest of the junior World Series here tonight after edging the International League squad 5 to 3 in the opener.

The Colonels' win last night placed them one up on the Baltimore Club in the four-out-of-seven series.

HUNGARY'S COLLAPSE BELIEVED NEAR AS REDS CROSS BORDER

(Continued From Page One)

Levitha is a small island 43 miles west of the Turkish coast and approximately the same distance south and slightly west of the island of Samos the capture of which was announced in a communiqué issued by Greek headquarters in Cairo yesterday.

Allied planes strafed six German held airfields near Athens and Salonika on the Greek mainland in the face of heavy flak but met no fighter opposition.

Fugitives Blasted

Conducting effective strafing attacks, U. S. 15th Air Force Mustangs and Lightnings countered German attempts to evacuate or supply troops by air and destroyed more than a score of enemy planes on the ground.

Four of the enemy airdromes attacked are within a 12-mile radius of Athens. Airdromes at Sedes just south of Salonika were strafed by Lightnings which hit parked aircraft, motor transport and radio station.

Horses from Here Missing from Trots For First Time

For the first day since the Lexington Trots started two weeks ago, no horses or drivers from here were on the track for the crowd to cheer.

Racing was resumed Friday after Thursday's interruption by rain. Delayed three hours for the track to dry off sufficiently, the horses were slowed by the heavy going.

The last three races were taken in straight heats with Elgers winning the feature event, the Lexington Herald-Leader stake for two-year-old trotters.

JAP THREAT IN CHINA IS GROWING SERIOUS AS FOCHOOW CAPTURED

(Continued From Page One)

the approached to Tiddim. Encircled by an Indian regiment, the Nipponese abandoned the "Chocolate Staircase" section of the Tiddim Road.

The fall of Fochoow was anticipated when well-equipped Japanese columns began their advance. The port, lying across a narrow strait from Formosa, was captured by the Nipponese in April, 1939, and retaken five months later by the Chinese who have held it since.

Advance Japanese units were only 25 miles from Kweilin, capital of Kwangsi Province and main goal of a comprehensive Japanese offensive. Embattled Paoching, 135 miles northward in Hunan Province, appeared to be doomed, after a Chinese admission that contact had been lost with the defenders. The city threatened the Japanese right flank.

The Chinese also acknowledged Japanese occupation of Changning, a coveted position on the Nipponese left flank, 36 miles south of the Hengyang Railroad junction.

The Chinese communiqué said defenders, operating behind Japanese lines, had retaken Nzewui, important town 47 miles northwest of Canton in Kwangtung Province.

FIRECRACKER EXPLOSIONS SPICE COMMUNIST REVUE; SATIRE ON REPUBLICANS

(Continued from Page One)

has come when the whole country must join the labor movement in demanding that this unholy combination shall be broken up.

Browder made no comment on President Roosevelt's statement Thursday night that he neither sought nor welcomed the support of Communists in the political campaign.

The revue was a satire on Governor Thomas E. Dewey and his Republican aides. Strong opposition to the production had been voiced by the Massachusetts Women's Political Club but the club's request to city officials and the management of symphony hall brought negative action.

Boston was the first of 20 cities where the revenue was scheduled.

DARING LIBERATOR PILOT RESCUES AIRMEN IN SEA; GUARDS FROM JAP ATTACK

(Continued from Page One)

guard the men in the water against possible Japanese attack. Its gasoline supply ran dangerously low. Then it sent up several flares. These were sighted by a Catalina patrolling not far away, and within a few minutes the flying boat had landed on the water and picked up the Mitchell crew.

Pennington waggled the Liberator's wings and headed for his base in the darkening twilight. Others aboard the Liberator included Lt. Allan J. Wise, Leavittsburg, Trumbull County, Ohio, co-pilot.

MEETING HELD BY CANDIDATES

Republicans Formulate Plans For Campaign

All Republican candidates for office in Fayette county met with the Republican Executive Committee at Republican headquarters, Friday night, and discussed campaign plans generally.

Roy Carr, chairman of the executive committee, presided over the meeting, and the discussion was general, with agreement on policies to be followed.

Reports of candidates and members of the committee, it was stated, indicate a Republican victory in the county this fall.

Wilmington Wins From Hillsboro by One Touchdown

Encouraged by scoring their second touchdown of the season against the tough Greenfield team Friday night, the Blue Lions of WHS today looked forward with rising hopes as they got ready for their next game at Hillsboro a week hence.

The Indians, described as "big and rugged," gave the Wilmington Hurricanes plenty of trouble Friday night although they lost by a score of 6 to 0. The Wilmington boys, after having been balked at every turn by the Indians, put across their touchdown in the last few minutes of play when Cope-land shot a 40-yard pass from behind his own goal line to Daniel who raced the remaining distance for the score.

Wilmington beat the Lions 26 to 0 a week ago.

Circleville, the other SCO League member, was idle.

FORMER RESIDENT DIES IN WARREN COUNTY

Thomas A. Bernard, 84, former WCH resident, died at a rest home in Warren County, it was learned today.

Bernard, was at one time a commercial printer here.

The body was brought to the Klever Funeral Home where it will remain pending word from his three daughters, Mrs. Eliza Sole and Mrs. Nora Stockwell of Reading, Mich., and Mrs. Florence Immell of Ashley, Ind.

RUTH ADAMS IS CROWNED QUEEN OF HOMECOMING

Band Shares Spotlight With Reigning Beauty at Half With Formations

Carried not by a knight in shining armor but in a shiny blue convertible, Ruth Adams, Homecoming queen of WHS, rode onto the field Friday night only a few minutes before playing time to highlight the preliminaries of the Blue Lion-McClain Tiger football game.

In a yellow suit with a brace of orchids on her right shoulder, Ruth and her sweater and skirted attendants were escorted from the cars to the place on the 50 yard line where Captain Bill Curry and Richard Babb waited with a portable microphone. Babb introduced Curry who put a glistening crown on Queen Ruth's blonde head. Then he escorted her back to the car and just before the blue and white streamer bedecked convertible drove away, she threw a shiny new pigskin to him for luck.

Attendants were Connie Pyle, junior; Jo Ann Arnold, sophomore; Carolyn DeHeart, freshman; Marie Riber, eighth grade, and Patty Eckle, seventh grade.

Supt. A. B. Murray spoke briefly before the queen was crowned, welcoming Greenfield to the Homecoming festivities.

The Band Show

A much-improved WHS band marched smartly through some intricate formations in pre-game and intermission shows. Climax of the band's performance was a huge heart made with the field lights out and outlined with flashlights. In the spotlighted center stood the queen as the band played "Let Me Call You Sweetheart." When the lights flashed on again, Drum Major Toby Eckle escorted Queen Ruth back to the white covered throne where she reigned over the game, flanked by her attendants.

At the beginning of the half-time exhibition, the band melted into a huge G honoring the Greenfield fans. After the heart formation, it flowed into the W to play the traditional alma mater for WCH students.

The spotlighted flag raising with field lights out opened the pre-game show. The band played the national anthem until the flag reached the top of the pole. Then, high stepping down the field, the band stopped dead in the center to make the word H. A quick reverse of the crossbar made the greeting applicable for Greenfielders and for the alumni in the home town stands.

Lt. Fred Pierson, USCG, who coached those mighty mites of WHS who flashed across SCO gridirons just before the war, slipped into the press box almost unnoticed until he was asked by the announcer, Robert A. Craig, to say hello.

It was the first football game he had seen since he entered the service in 1941, Lt. Pierson said, and added "I sure am enjoying it and I hope they win."

Down on the bleachers just below the press box sat one of the boys who played under Coach Pierson, and a class mate, in natty blue uniforms of navy and coast guard, with star studded campaign ribbons on their breasts. Charles Callender, EM 2c, USN, and Henry Crouse, MM 3c, USCG, stood when introduced. Both had seen months of rough service in many parts of the world.

I. N. LAIR DIES

WILMINGTON—Isaac Newton Lair, Sr., 73, former cashier of the Citizens' National Bank, died of a heart attack at Cynthiana, Ky.

Tight skirts mean harder wear and shiny seats. Brush them frequently with a soft brush.

DAYTON MAN SPEAKER AT SABINA LIONS CLUB

A new vision of Lionism was given the Sabina club when D. A. Stoddard of Dayton and District Governor Wiseman spoke at the last meeting in Manker Inn.

A full report of the Teen Age Club project, fostered in Sabina by the Lions, is expected to be made public soon.

SELDEN GRANGE INSPECTION TO BE ON TUESDAY

First Degree To Be Given Class of Candidates During Meeting

The October meeting of Selden Grange will be held Tuesday at 8 P. M., and will be the annual inspection meeting, at which time the work of the Grange, including the duties of the officers, lecture program, degree work, etc., are to be scored. The inspecting officer will be County Deputy Loren D. Hynds.

The first degree will be conferred upon a group of candidates by the Selden Grange first degree team.

The lecture program, in charge of Mrs. Ethel Cavine, will include agricultural, educational and entertaining material as well as special features.

The master stated that this should be an outstanding meeting of the year, and he requests very every member to be present.

Refreshment committee: Mr. and Mrs. Harold C. Mark, Mr. and Mrs. Elmer Davis, Mr. and Mrs. Glenn Woodmansee, Mr. and Mrs. Glenn Rhonemus, Ulic Acton, Anna Alice Frayne and Ralph Theobald.

MARION P-TA WILL CONTINUE CANNING

Marion PTA women will can again Wednesday at the school, it was announced Thursday night at the PTA meeting. The fruit will be used to supplement school lunches.

The organization's membership drive is to be extended for another month and will be climaxed by a game supper.

A sale dinner for the Will Sexton farm sale October 20 will be served by the PTA. Mrs. Wayne McArthur, president, appointed Mrs. Alvin Writsel, Mrs. Preston Dray, Mrs. Loren Reif and Mrs. Willard Bloomer as a committee in charge of the dinner.

Social committee for the November meeting is Mrs. Bloomer, Mrs. William Fent, Mrs. Roscoe Duff and Mrs. Lee Sanders. Mrs. Seymour Campbell will have charge of the devotions.

County Auditor Ulic Acton headed the program with a short talk and piano solos. Joyce Crone and Mary Lou Reiff also played piano solos.

After a reading by the entire fourth grade, Charles Manker took the spotlight with impersonations, harmonica solos, readings, a piano solo with and without his hands encased in mittens, violin solo, whistling and a solo on rattlesnakes, with Acton as accompanist.

GREENFIELD MAN TO BE ROTARY CLUB SPEAKER

Rev. J. L. Kilpatrick, of Greenfield will be the guest speaker at the Rotary Club when it meets at the Country Club Tuesday noon. Rev. Kilpatrick has appeared on Rotary Club programs here before. W. H. Limes, president of Rotary, said.

COLLETT WILL NOT BE HERE FOR HEARING

Court of Appeals Session To Last Few Hours At the Most

When the Court of Appeals meet here Tuesday to review the James W. Collett murder case, the defendant will remain in "death row" at Ohio penitentiary where he has been confined since March 29 for the Thanksgiving eve triple murder of the Elmer McCoy family near here.

Only a few hours at the most will be required for presenting the case to the Court of Appeals, which will consist of the two regular judges, Roscoe G. Hornback, of London and Frank W. Geiger, of Springfield and Charles A. Guernsey, of the third district court of appeals, who takes the place of Judge Joseph G. Barnes, of Sidney, who is seriously ill.

The case will be submitted on briefs, arguments, and the records, and it is expected it will be taken under advisement and decision rendered within the next few weeks. If the lower court is sustained then the Appeals Court will fix a new date for Collett's execution, which originally was set for July 26 but automatically postponed when defense counsel carried the case to the court of appeals on 10 alleged errors.

Collett has had few visitors during the long months of his confinement for shooting to death his brother-in-law, Elmer McCoy, Mrs. Forrest McCoy and their daughter, Mildred.

John B. Hill, the prosecutor, and Simon L. Leis, assistant, Cincinnati, will stress the "murder for profit" claims made throughout the Collett trial, and point to the fact that Collett's wife will receive upward of \$60,000 from the estate of her murdered brother and his family.

Settlement of the McCoy estate has not been completed, but the McCoy home farm of 165 acres five miles north of here, where Collett admitted in a signed confession that he shot Elmer McCoy to death but "didn't recall about the women" has been sold by Collett's wife to Mrs. McCoy's brother and sister, Dr. J. A. McCoy and Mrs. Sylvia Atkinson. The McCoy home where the murders took place, have not been occupied since the crimes. Mrs. Collett is said to have received \$125 per acre for the farm.

She has also disposed of the 160 acre and 65 acre farms owned by the McCoy's, and the only real estate of the McCoy estate she retains is a house and two lots in Bloomingburg.

Jack Rodgers, Paint township farmer, bought the 160 acre tract of the estate and County Coroner, Dr. N. M. Reiff the 65 acre tract. The price paid was said to be around \$160 per acre.

That part of the estate, in addition to sharing the proceeds of the big personal property sale, going to Dr. McCoy and Mrs. Atkinson consists of the "accumulated earnings" or a half interest in the 160 acre and 65 acre farms.

The name of James W. Collett appears on papers connected with the estate as releasing all rights and expectancy of dower in the real estate. His signature was obtained in the Ohio Penitentiary sometime ago by E. L. Bush, attorney for the executors, Mrs. Collett and Dr. McCoy.

Collett was the first man in Ohio to be found guilty on three counts of first degree murder, and the crimes of which he stands convicted were shooting his brother-in-law in the back of the head while he was busy in the McCoy barn after nightfall; riddling Mrs. McCoy with bullets from two pistols on the back porch of her home when she screamed after the first shot fired had missed her, and then waiting until the daughter, Mildred, school teacher at Pittsburgh, Darke County, came home in her car, and shot her in the back of the head beside her car parked in the barnlot. The

THE OLD HOME TOWN

FAYETTE COUNTY BOYS IN SERVICE

W. Carl Rohrer, seaman second class, U. S. Navy, of the Navy Pier, Chicago, Ill., has been visiting his parents, Mr. and Mrs. A. M. Rohrer of New Holland and sister, Mrs. Dale Follrod, for several days.

DRIVER FINED \$56.20; ARRANGES FOR PAYMENT

Marine R. Kuhn, Leesburg, R. 2, picked up by the police about 12:45 A. M. Saturday as he was driving on Court Street, was placed in the city jail on a charge of operating a motor vehicle while drunk.

Before Judge R. H. Sites, Saturday forenoon, Kuhn pointed to a scar across his forehead and told the court that since he had received the injury a year ago he sometimes had dizzy spells and his eyes crossed, indicating he could not drive properly at such times.

However, he admitted he had been drinking, and the usual \$50 and costs was assessed. Unable to pay all of the fine he was given until 4 P. M. Saturday to obtain it.

CONVICTED WOMAN TAKEN TO PRISON

Mrs. Madelon Jones, found guilty of abandoning her child, and sentenced by Judge Otis B. Core to the Women's Reformatory at Marysville, was taken to that institution Friday, in custody of Sheriff W. H. Icenhower, who was accompanied by Mr. and Mrs. Glenn Smith.

LIONS CLUB WILL MEET AT TERHUNE COTTAGE

The Lions Club will forsake its customary lair in the Country Club Tuesday night to meet at Robert Terhune's cottage. The club is to meet at Bryant's Restaurant at 6:30 P. M. to share the ride to the cottage. Only Lion members will attend the meeting.

bodies were found the next day.

Mrs. Collett still occupies the home farm in Clinton County a few miles from New Burlington, and her son, Thomas, who testified his father told him he had killed Elmer McCoy, resides on a neighboring farm.

Charles Kirk and Allen Smith of Wilmington, will represent Collett at the hearing here. James N. Linton, chief counsel for Collett until after the trial is no longer connected with the case.

HOMER BIRELEY PRAISES USO CLUB ACTIVITY

WCH Soldier Describes USO Services for Men in Service

Pvt. Homer Bireley, former manager of the Economy Savings and Loan here and now stationed at Camp Polk, La., has nothing but praise for the USO.

In service since December, Pvt. Bireley has investigated USOs in Williamsburg, Va., near Camp Eustis; in Wilmington, N. C., near Camp Davis and in Leesville, La., near his present station, and he knows whereof he speaks.

He told of the free movies, stationery, dances, orchestras, and food dispensed at USO clubs. "One reason I think it works so well is that there are so many contributing both their time and money," he said.

One special meaning the USO has for him is linked with a commonplace thing—a telephone call. Pvt. Bireley called his wife from camp once and waited seven hours before his call could be put through. At the USO, his call was completed in 20 minutes.

The USO plans benefits not only for the soldiers themselves, but for their wives when they come to visit their husbands, Pvt. Bireley said. He described kitchens where wives could produce some home cooking and of laundry rooms, hobby classes—virtually a complete schedule for women who must wait all day in a strange town before they see their husbands.

All this is made possible through contributions to the National War Fund, of which the USO is one of the most important parts. House to house canvassing for the NWF will begin October 16. The goal for Washington C. H. is \$24,900.

PENWELL IS GIVEN PAROLE FROM PRISON

Lonnie Penwell, sentenced to the Ohio Penitentiary for abandoning a pregnant woman, has been granted a parole effective November 16, the Pardon and Parole Commission has announced. Numerous other prisoners were given paroles effective on the same date.

NEW BEAUTY SHOP WILL OPEN HERE ON MONDAY

Mrs. Dorothy Knisley Snyder will open a new beauty shop Monday in the Teeters Building immediately north of the Washington Hotel in the same location formerly occupied by the Powder Puff beauty shop.

Mrs. Snyder is a graduate of the Frederick Beauty Academy in Springfield and has had several years of experience as a beauty operator. She has been employed for six and a half years at Helen's beauty shop on North North Street.

MRS. MARY R. BROWN GREENFIELD—Mrs. Mary R. Brown, 82, died of a heart attack Friday.

EBEN HOLDEN says—

"There is strength to memory. When you are tired trying to make things go your way, stop and think of someone close and think—'What would he or she do?' Just keep on thinking . . . and you'll get your answer."
It is well for us to do things which help us remember.

Relatives of Soldiers!
There are still over
800 FAYETTE COUNTY MEN AND WOMEN
In our Armed Forces, overseas, and in the States
WHO CANNOT VOTE
Unless some relative applies to the County Board of Elections for their ballot.
It Is Their Right To Vote!
It Is Your Duty To See That They Get the Ballot To Vote!
They are easy to get. Just follow these simple instructions:
Take your correct address with you to the County Board of Elections office, in the basement of the Fayette County Court House, between the hours of 8:30 A. M. and 4:30 P. M., every day except Sunday, where courteous officials will be glad to serve you.
The following relatives are allowed to file applications for absent war voter ballots:
Wife, father, mother, grandparent, father-in-law, mother-in-law, brother or sister of the whole blood or half blood, son, daughter, adopted parent, adopted child, step-parent, step-child, uncle, aunt, nephew, niece.
Regardless of your politics, do this as soon as possible.
